The "World" on the New York Herald.—That daily sheet, the New York Herald, has a deal more of shrewdness in its money articles, than of piety in its editorials. In its last issue it says:

The South has curtailed its liabilities, this fall, to so great an extent, that a few months hence will rapidly place it in a position of great financial ease and strength. The cotton crop will, probably, not much exceed 4,000,000 bales, and the knowledge of this fact will stimulate sales in Liverpool and advance prices. The consumption of cotton in Europe is increasing in a greater ratio than heretofore, and many manufacturers in Manchester, England, have more orders on hand than they can execute for the next two months. There is every reason to believe that the Southern crops of cotton, sugar and tobacco, will realize more in cash value than the very large amount of last year. This, with the diminished purchases made by Southern buyers from the North, will soon enable them to get rid of the effects of their previous overtrading.

On the other hand, on its remarks on the state of the North's Stock Market, it doesn't think things look so bright:

Prices again declined, and large amounts of stock are being pressed on the market for sale, as occasion offers. The sellers are more numerous than the buyers. Erie was the heaviest stock on the list, and was sold down to 7 1/2, a decline of 7 per cent. from the highest point. The market for wheat is quiet, with a few changes of consequence. MR. WINSLOW.

An experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation, will soothe all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column. Feb. 25.—147-37-21-1.

A Word about Hair Restoratives. The original is still the best preparation for restoring grey hair to its original color, and restoring it strong, coloring or restoring. Every other preparation advertised for this purpose is but an imitation of this. Most of them are made with water, and require the expense of a hair dressing to accompany them, as they leave the hair harsh and dry. Heinemann's is made with oil and stimulating spirits, restoring an agreeable hair wash, aside from its value as a restorative, it is also a reasonable price, placing it within the reach of all. We might introduce certificates from Clergymen, Senators, and well known citizens in all parts of the country, but it is unnecessary. We leave our readers to judge that if imitations can cause comparative successful results, the original and imitated article must surely be equally successful. Price fifty cents and one dollar a bottle. Sold everywhere by all Druggists.

THE WRECK OF MATTER. THIS political explosion has every day a literal fulfillment. "Horses and Cows seized by such diseases as Plague, Pink Eye, Coughs, Colds, Worms, Mange, Rough Coat, and a host of other diseases, lose their beauty and strength. The muscles become weak and flabby, the flesh wastes, and from sheer neglect we soon see a sad and melancholy shadow over the animal's life." THE MANITAN CONDITION POWDER takes hold of such diseases with a giant power, and in a few days the giver is surprised at the change effected. Health, vigor, and beauty are restored, and the most happy results realized. Found at WILSON'S. Barnes, Trunk, Saddlery, Leather and Oil establishment, No. 3 Market street, near the wharf.

The market for all qualities continues to be firm, and there is only a light stock in store. The sales for the week have been in the retail way at prices ranging from 10 to 15 cents per bushel, and in quality. See advertisement in another column.

Cons. Meal—Little or none coming in from the country, and the stock on market consists of parcels in the granaries, which are selling at 90 cents per bushel, in lots to suit. Dried Fruit—But little demand, and the market rules quiet. The last sales of peeled were at 34 cents for apples, and 10 cents for peaches.

First—The arrivals of Mullet during the past week have been better, and with a moderate stock in store, the market rules quiet, and prices are steady. Second—The market for Mullet during the past week has exhibited more firmness for State brands, and prices have further advanced. There is no consequence coming to market, and the small quantity received for some weeks past has caused the stock in first hands to become nearly or quite all worked off, and is chiefly confined to small parcels in the hands of retailers. We quote small sales from store at 10 to 15 cents per bushel, and in quality. See advertisement in another column.

Cons. Meal—Continues to be a moderate stock, and we notice only a small business doing at the following prices: No. 1. Peruvian 40; Super's Manipulated 35; American 40; and No. 2.
